

Target Market Determination for Vision Personal

Issued by Vision Super Pty Ltd (ABN 50 082 924 561).

This statement was prepared on
1 March 2025

1. About this document

When to use this target market determination

This target market determination (TMD) seeks to offer consumers, distributors and staff with an understanding of the class of consumers for which this product has been designed, having regard to the likely objectives, financial situation and needs of the target market.

This document is not to be treated as a full summary of the product's risks and features and is not intended to provide financial advice. Consumers must refer to the **Product Disclosure Statement (PDS)** and any supplementary documents when making a decision about this product.

Please call **1300 300 820** for further information. Consumers may also wish to obtain financial advice before joining this product.

Product Disclosure Statement to which this target market determination applies

This TMD applies to the choice product available through the Vision Personal accumulation offering as referred to in the following Product Disclosure Statement:

- > **Vision Personal Product Disclosure Statement** dated 1 March 2025
- > The choice product encompasses 11 investment options available to members joined to Vision Personal.

Date from which this target market determination is effective

1 March 2025

Date when this target market determination will be next reviewed

October 2025

2. Class of consumers that constitutes the target market

The target market for the Vision Personal choice product comprises the class of retail clients who meet the following criteria:

- > A consumer who wants to save for their retirement, within the superannuation system, with the aim of achieving strong risk adjusted returns over the long term
- > A consumer who wants to choose how their account balance is invested by selecting from a broad range of investment options
- > A consumer who wishes to access voluntary death, TPD and Income protection cover.

Generally, the age, occupation or industry of retail clients in this class does not affect their ability to participate in this choice product, subject to noting the following:

Age	There is no maximum or minimum age limit, however, for insurance cover a person must be 15 years or older and aged below the maximum age for the cover they are seeking. Age is also relevant to a person's ability to access a potential retirement bonus (see below). That is, age affects the availability of certain key attributes of the product.
-----	---

Product description and key attributes

Vision Super choice product is offered to members of the Fund who join Vision Personal. The general terms and conditions of the product (other than the investment and insurance options) are consistent with the requirements of the *Superannuation Industry (Supervision) Act 1993* and are fairly typical for a regulated superannuation fund. This includes the types of contributions and rollovers that may be received, preservation, portability, death benefit nominations (non-binding, binding and non-lapsing binding nominations), etc.

The key product attributes of choice product available through Vision Personal are:

- > Access to a choice of 11 investment options, including 5 premixed options and 6 single sector options, that allows members to mix and match their investments to suit their goals
- > Online account access using Vision Online and/or the Vision Super Mobile App
- > Access to a potential retirement bonus when transferring from this product to a Vision Super account based pension (other than a Vision Non-commutable account based pension). This is applied in the form of a credit towards the establishment of the retirement income account by eligible members
- > Access to death, Total and Permanent Disability (TPD) and Income Protection (IP) insurance cover on application to the insurer.

Objectives, financial situation, and needs – target market suitability

We consider that the likely objectives, financial situation and needs of consumers in the target market for this product are, generally speaking, the ability to access a broad range of investment and insurance choices while saving for their retirement.

Investment choices

Investment choice is a key attribute of the choice product available through Vision Personal. The investment options available within Vision Personal's choice product have been designed to meet the different needs of members, recognising that the risk/return profile of individual members will depend on their specific circumstances (including individual needs).

The table below sets out the characteristics of relevant investment options.

It is reasonably likely that the available investment options will enable all persons in the target market to select investments that are consistent with their likely objectives, financial situation and needs. The Trustee has reached this conclusion based on the breadth of choice that is offered.

Investment option	Likely to be suitable for members who:
Balanced growth	<ul style="list-style-type: none">> Are seeking to outperform (after fees and taxes) the rate of inflation as measured by the Consumer Price Index (CPI) by 3.0% p.a. over rolling 15-year periods and to outperform (after fees and taxes) the median default superannuation fund over rolling three year periods, assessed using the SR50 MySuper Index from the SuperRatings Fund Crediting Rate Survey.> Are seeking to invest in a diversified portfolio with the aim of achieving the investment objective.> Are willing to invest in the option for a minimum investment timeframe of 6 years.> Are prepared to accept a more aggressive asset allocation than the 'Balanced' option. This option has the potential of providing higher returns, but also increases the risk of a negative return.> Are willing to accept a high level of risk and the potential for a negative annual return in 4 to less than 6 in 20 years.
Conservative	<ul style="list-style-type: none">> Are seeking to outperform (after fees and taxes) the rate of inflation as measured by the CPI by 1.5% p.a. over rolling 15-year periods.> Are seeking to invest in a diversified portfolio with the aim of achieving the investment objective.> Are willing to invest in the option for a minimum investment timeframe of 4 years.> Are prepared to select a less aggressive asset allocation than the Balanced growth option in exchange for more stability of return.> Are willing to accept a low to medium level of risk and the potential for a negative annual return in 1 to less than 2 in 20 years.
Balanced	<ul style="list-style-type: none">> Are seeking to outperform (after fees and taxes) the rate of inflation as measured by the CPI by 2.0% p.a. over rolling 15-year periods.> Are seeking to invest in a diversified portfolio with the aim of achieving the investment objective.> Are willing to invest in the option for a minimum investment timeframe of 5 years.> Are prepared to accept a moderate to high risk tolerance.> Are willing to accept a medium to high level of risk and the potential for a negative annual return in 3 to less than 4 in 20 years.
Balanced low cost	<ul style="list-style-type: none">> Are seeking to outperform (after fees and taxes) the rate of inflation as measured by the CPI by 2.5% p.a. over rolling 15-year periods.> Are seeking to invest in a diversified portfolio with the aim of achieving the investment objective.> Are willing to invest in the option for a minimum investment timeframe of 7 years.> Are prepared to accept a more aggressive asset allocation than the 'Balanced' option.> Are willing to accept a high level of risk and the potential for a negative annual return in 4 to less than 6 in 20 years.

Investment option (continued)	Likely to be suitable for members who:
Growth	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and taxes) the rate of inflation as measured by the CPI by 3.5% p.a. over rolling 15-year periods. > Are seeking to invest in a diversified portfolio with the aim of achieving the investment objective. > Are willing to invest in the option for a minimum investment timeframe of 8 years. > Are prepared to accept a more aggressive asset allocation than the 'Balanced growth' option. This option has the potential of providing higher returns, but also increases the risk of a negative return. > Are willing to accept a high level of risk and the potential for a negative annual return in 4 to less than 6 in 20 years.
Cash	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and before taxes) the Bloomberg Ausbond Bank Bill Index over rolling 3-year periods. > Are seeking to invest cash in interest-bearing accounts and money market securities such as bank term deposits. > Are willing to invest in the option for a minimum investment timeframe of less than 1 year. > Are prepared to select an option that generally has relatively stable and low returns versus the 'Balanced growth' option. This option is expected to have the highest level of return stability of all options. > Are willing to accept a very low level of risk and returns that are heavily influenced by the cash rate that the Reserve Bank of Australia (RBA) targets.
Diversified bonds	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and before taxes) over rolling 5-year periods: <ul style="list-style-type: none"> • 50% Bloomberg Ausbond Composite All Maturities Bond Index and • 50% FTSE World Government Bond Index ex Australia (hedged in AUD). > Are seeking to invest across a range of fixed interest securities in Australia and overseas. > Are willing to invest in the option for a minimum investment timeframe of 4 years. > Are prepared to select an option that generally has greater stability of return and lower medium-term returns than the Balanced growth option. > Are willing to accept a medium level of risk and the potential for a negative annual return in 2 to less than 3 in 20 years.
Innovation and disruption	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and before taxes) the MSCI All Countries ex-Australia Net Dividends Index, unhedged over rolling 15-year periods. > Are seeking to invest in high growth companies globally that generally use technology in various forms to power their growth. > Are willing to invest in the option for a minimum investment timeframe of 15 years. > Are prepared to accept an aggressive and very concentrated asset allocation. This option has the potential to provide higher returns, but also increases the risk of a negative return. This is the highest risk option offered. > Are willing to accept a very high level of risk and the potential for a negative annual return in 6 or greater in 20 years.

Investment option (continued)	Likely to be suitable for members who:
International equities	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and before taxes) the MSCI All Countries World ex Australia Net Dividends Index, unhedged over rolling 15-year periods. > Are seeking to invest in overseas companies usually listed on one or more overseas stock exchanges. > Are willing to invest in the option for a minimum investment timeframe of 12 years. > Are prepared to accept a more aggressive and concentrated asset allocation than the Balanced growth option. This option has the potential to provide higher returns, but also increases the risk of a negative return. > Are willing to accept a very high level of risk and the potential for a negative annual return in 6 or greater in 20 years.
Australian equities	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and before taxes) the S&P/ASX 300 Accumulation Index over rolling 15-year periods. > Are seeking to invest in Australian companies usually listed on the Australian Securities Exchange (ASX) with allocations to both active and index managers. > Are willing to invest in the option for a minimum investment timeframe of 12 years. > Are prepared to accept a more aggressive and concentrated asset allocation than the Balanced growth option. This option has the potential to provide higher returns, but also increases the risk of a negative return. > Are willing to accept a very high level of risk and the potential for a negative annual return in 6 or greater in 20 years.
Just shares	<ul style="list-style-type: none"> > Are seeking to outperform (after fees and before taxes) over rolling 15-year periods: <ul style="list-style-type: none"> • 45% S&P/ASX 300 Accumulation Index and • 55% MSCI All Countries World ex Australia Net Dividends Index, unhedged. > Are seeking to invest in a portfolio of Australian and international equities. > Are willing to invest in the option for a minimum investment timeframe of 12 years. > Are prepared to accept a more aggressive and concentrated asset allocation than the Balanced growth option. This option has the potential of providing higher returns, but also increases the risk of a negative return. > Are willing to accept a very high level of risk and the potential for a negative annual return in 6 or greater in 20 years.

Insurance choices

Insurance choices are a key attribute of the choice product available through Vision Personal (subject to eligibility criteria). The insurance options available within Vision Personal's choice product have been designed to meet the different needs of members, recognising that the insurance cover suitable for individual members will depend on their specific circumstances (including individual needs).

The table below sets out the main characteristics of insurance cover available to all eligible members of Vision Personal.

Eligibility criteria is assessed during the underwriting process to help ensure that optional insurance cover is accepted for members who will be able to claim on the cover (subject to the terms and conditions of the policy and any changes in a consumer's circumstances which may result in the cancellation of cover or the application of an exclusion or other restriction, which cannot be predicted).

It is reasonably likely that the available insurance options will enable all persons in the target market to select insured benefits that are consistent with their likely objectives, financial situation and needs. The trustee has reached this conclusion based on the breadth of choice that is offered including the types and levels of cover.

Insurance option	Likely to be suitable for members who:
Death Only (including Terminal Illness)	<ul style="list-style-type: none"> > Are seeking an enhanced or tailored level of cover beyond that provided by any Default Death Only cover they may be eligible for. > May have financial dependents that require financial support in the event of a terminal illness diagnosis or their death. > May have new and/or outstanding financial commitments while terminally ill or beyond their death that need to be met. > Are willing to pay a premium based on the level of cover provided and their age. > Are willing to apply for cover subject to the underwriting requirements.
Death and Total and Permanent Disability (TPD)	<ul style="list-style-type: none"> > Are seeking an enhanced or tailored level of cover beyond that provided by any Default Death and TPD cover they may be eligible for. > May have financial dependents that require financial support in the event of a terminal illness diagnosis or their death. > May have ongoing financial commitments that need to be met in the event of being permanently disabled. > May have new or outstanding financial commitments while terminally ill or beyond their death that need to be met. > Would like financial security in the event of an unexpected disablement to reduce financial pressure to return to work or to fund extended recovery leave. > Are willing to pay a premium based on the level of cover provided and their age. > Are willing to apply for cover subject to the underwriting requirements.
Income Protection (IP)	<ul style="list-style-type: none"> > Are seeking an enhanced or tailored level of cover beyond that provided by any Default IP cover they may be eligible for. > May have ongoing financial commitments to be met in the event of a temporary disability due to injury or illness. > Are willing to pay a premium determined based on the level of cover provided, waiting period and benefit payment period. > Are willing to apply for cover subject to the underwriting requirements.

3. How this product is to be distributed

Distribution channels

This product has been designed to be distributed through the following means:

- > Directly online or via paper application
- > Call centre or other Vision Super staff providing general information or advice
- > Industry Fund Services Ltd (IFS) and authorised representatives (IFS advisers).

Distribution conditions

This product should only be distributed under the following circumstances:

- > For members obtaining advice about the choice product on a general advice basis, the member has been provided with a general advice warning and has been made aware of their ability to access personal advice from IFS advisers.

Adequacy of distribution conditions

Vision Personal distribution conditions and restrictions will make it likely that consumers who purchase the product are in the class of consumers for which it has been designed. This is based on an assessment of the distribution conditions and restrictions and that they are appropriate and will assist distribution in being directed towards the target market for whom the product has been designed.

4. Reviewing this target market determination

We will review this target market determination in accordance with the below:

Next review	October 2025.
Periodic reviews	At least every year.
Review triggers or events	<p>Any event or circumstances arise that would reasonably suggest the TMD is no longer appropriate. This includes (but is not limited to):</p> <ul style="list-style-type: none">> A material change to the design or distribution of Vision Personal, including where a Significant Event Notice is issued to existing members and/or the PDS is re-issued as a result of material change(s) to the product disclosures.> Occurrence of a significant dealing that is not consistent with this TMD.> External events such as adverse media coverage or regulatory attention.> Significant changes reflected in key metrics, including:<ul style="list-style-type: none">• Material increases to member complaints or significant changes to complaints trends,• Material increases in members exiting Vision Personal• Material changes in insurance variations or cancellation rates• Material changes in investment switches• Material changes in the denial or withdrawal of insurance claims• Material changes to key attributes, in particular investment and insurance choices or their characteristics• Significant market developments affecting investment performance, investment option asset allocations, risk profiles, liquidity or other investment option characteristics.> Any other Indications that the distribution conditions do not make it likely that the consumers who acquire the product are in the target market and, therefore, distribution conditions are or may be inadequate.> The Trustee makes a determination for the purposes of s52(9) of the <i>Superannuation Industry (Supervision) Act 1993</i> (Member Outcomes Assessment) that the financial interests of the members who hold this product are not being promoted.> Receipt of an order from ASIC requiring Vision Super to cease distribution of this product.> Changes to legislation which materially impact the design and distribution obligations or the design and distribution of the product.

Where a review trigger has occurred, this TMD will be reviewed within 10 business days.

5. Reporting and monitoring this TMD

We will collect certain information from our external distributors (Distributors) for the purpose of monitoring this TMD, to the extent that such Distributors are able to provide such information given the nature of their distribution conduct.

Complaints	Distributors will report any complaints in relation to the product covered by this TMD (including complaints relating to key attributes) on a quarterly basis as soon as practicable but no later than (within 10 business days after the end of the calendar quarter). This will include written details of the complaints.
Significant dealings	<p>Distributors will report if they become aware of a significant dealing in relation to this TMD within 10 business days of the distributor becoming aware of the significant dealing. Information to be provided include date(s) of the significant dealing, description of the significant dealing and how the significant dealing was identified.</p> <p>A significant dealing includes any dealing inconsistent with this target market determination that the distributor considers to be significant (based on their own discretion, having regard to the ordinary meaning of 'significant dealing' and the actual or potential harm that may be suffered by a consumer who falls outside the target market). As a minimum, however, the Trustee expects distributors to report the following dealings (or group of dealings) when a distributor becomes aware of them:</p> <ul style="list-style-type: none">• A significant proportion of consumers have acquired the choice product are not in the target market• The degree of potential or actual harm to consumers if consumers outside the target market have acquired the product• A significant proportion of superannuation contributions or account balances being directed to the product from consumers outside the target market.

In addition to this, the Trustee collects and monitors data from internal sources, including staff that interact with consumers, complaints received by the Trustee, and investment performance, member transactional and other product related data to assist its monitoring or review of this TMD.
